

## Thanksgiving essay

**Hooray it's thanksgiving! Where we all sit down and talk about the things we are thankful for. I am thankful for my family and friends and my education. Without my family and my friends I would be just a lonely person. My education that's why we have teachers if there wasn't any teachers I would not be smart or educated.**

**One thing I'm thankful is my family because some people in this world don't have a family. So I am lucky to have one. My mom is so helpful in my life she feeds me she clothes me she does everything to keep me alive and safe. I have a brother and a sister the help me in my life too. That's why I am thankful for my family.**

**The next thing I am thankful for is my friends. If I didn't have friends I would be a lonely person. My friends help me with my struggles. They play with me and they make me happy. When I'm alone they will comfort me. I think having friends is the coolest thing ever! That's why I am thankful for my friends.**

**My last thing I am thankful for is my education teachers are so helpful if there were no teachers I would be dumb. Teachers have been helping me since I was 3. They taught me how to do math, science, ELA, social studies. This is why I am thankful for my education.**

**So this is why I am thankful for my family because I will be lonely. I am thankful for my friends they keep me company. I am thankful for my education because without it I would be dumb. Without all of this my life would mean nothing. This is what I am grateful for all of them.**
