

Thanksgiving was the day that the Indians and Pilgrims had their first feast together. You could say that the Pilgrims and Indians were thankful for the food they shared together. Thanksgiving is a day that we are thankful for many things.

I am most thankful for my family and friends that I have . They help me or play with me when I am bored or in trouble. They are always there when I need them. If I didn't have them I would be very lonely and sad.

Without the food and water I have, would be dead. I am very thankful for it. My favorite food is ice cream. I like water the best when it's cold. On thanksgiving we usually eat turkey and mashed potatoes. We also eat many other things. I am so thankful for always having food to eat.

I am also thankful for all of the toys and games I have. If I didn't have these things, I would always be bored or stressed out. With the toys I have, I can play by myself or with my brother. They are fun to play with, especially the video games because I can play with people around the world.

I am so thankful for many things, but my family, food and water, and video games are what I am thankful for the most. I don't know what I would do without them. Because I have these things I have a happy life.
