**Writing** Final copy

**What I'm Thankful For**

**What am I thankful for? I have many things to be thankful for. I have a home , two loving parents , and I also have my education to be very thankful for.**

**I am thankful. I am thankful for my home because it supplies me with shelter. It keeps me safe from animals and people that can harm me as well as dangerous weather that can cause illness. It also provides with physical and mental security, shelter, and safety.**

**I am also thankful for my family. My family is always there for me the keep me safe and try their best to make me happy even if I'm**

**very sad. My parent also keep me safe. They encourage me to be kind and alway do my best even in the hardest times. My parents work hard all day so they can afford things for my family. My parents have worked very hard their whole lives and try their best to give me what they never had , and I am very thankful for them and what they have sacrificed for me.**

**I'm thankful for my education.My education supplies me with what I need to lead a successful and enjoyable life.My education teaches me life skills, and lessons to help me move further in my life. Education will shape me into the person I will be and the person I have set out to become.Education is not just learning math , science,english language arts,and social studies it learning thing that might seem boring, but can help me later on in life. I feel everyone should be thankful for education and the guidance that come with it.**

**It's important to be appreciative of your family, home , and education. Without my parents I wouldn't be the same person I have become, and without my family, home, and education I would not be able have good job or have a happy and healthy life. I am so thankful to be blessed with all all of these things.**
