

Do you like Autumn? Well, autumn is the time of year when Thanksgiving comes around. When Thanksgiving comes around, you say what you're thankful for. I'm appreciative for my family & friends, food & water, & shelter. To me they are all important for my safety, my health, & my happiness.

My friends and family are very important to me. They take care of me and always support and love me. For example, whenever I am sad or mad they always comfort me. They are always there when I need them. My friends and family are also very loving. They keep me from feeling lonely and afraid. I don't know where I would be without their love and support.

Food and water are important because they help me stay hydrated and healthy. Without these things, I would not survive. I have food on the table every night and I always have water to drink. I am very lucky because not everyone is fortunate to have those things. I am thankful for having food and water.

Shelter helps protect me from the cold, the wind, and storms like tornados & hurricanes. Shelter also helps keep bugs and diseases from harming you. Having an shelter is so important because it helps to keep you safe. I am so fortunate to have an shelter that keeps me safe and warm.

Thanksgiving always reminds me of to be thankful for many things. I am appreciative for my family and friends, food and water, and shelter. I am so happy and thankful to have these things in my life.
