

What Am I Thankful For This Year ?

I am thankful for many things this year. This year I am very thankful that my parents aren't in danger at work, and for their jobs because they have money for food, things I want, and before the school year they have money for school supplies. My dad does roofing and is always in roofs at work and I am thankful for that because he is safe so he does not end up in the hospital or any atcendences. I am thankful for education so I get smarter and smarter everyday and when I grow up as an adult I can get a job. If I didn't have education I would be in my mom's basement forever. If my parents didn't have their jobs we wouldn't have a house or food. I am really really thankful for my brother when I am sad he will be cheer me up also if I didn't have a brother who would play with me or always be there for me. My aunts, uncles, and cousins are the best. My aunts make the best food, my uncles always makes me laugh, and my cousins always play or help me. My sister lives in South America so I really don't know her but I am thankful for that she is doing good in school and she has money for the things she needs. All of these things I am thankful for this year, the year of 2016 and another to come and be even more thankful for. *The END*
