

# What I am thankful for

By: Daniel Lopez

I am thankful for all of the things my parents have provided me. My parents have given me so much things they gave me a house, food, electronics, clothes and much more.

Sometimes I may not be happy with them and fighting with them even after all of the things they have provided me with. My parents also provide me with other stuff I do not need because they adore me. They gave me a hoverboard, ps4, wii u, and phone.

I am very thankful that we are lucky people and have a good amount of money because some people don't even have 1 cent. I am very thankful that my parents have given all of this stuff it makes me feel so happy!
